I am currently seeking a challenging position as a Shift Supervisor with a company discovering new technology in the power generation industry.

SUMMARY OF QUALIFICATIONS

- Experience as a Shift Supervisor, training and leading control room operators and plant operators in all aspects of plant operations, including coordinating multiple contractors during plant outages on an annual basis.
 - Experienced at new construction power plant start-ups at 3 Bechtel built Co-Generation plants. (Name Co-Gen. Plant, formerly Name Plant), (Name Co-Gen. Plant), and (Name Co-Gen. Plant). I also worked at Name Co-Gen. Plant during an 8 week major outage.
 - I have over 15 years of comprehensive knowledge of the intricacies of startup, normal operation and transient response and action of utility scale power plants.
-
